*Solicitors*APPLICATION FOR AMENDMENT
OF POLLUTION CONTROL PERMIT PE-1974

THIS APPLICATION is to be filed with the Director of Pollution Control, 3001—43rd Avenue, Vernon, B.C. V1T 3L4.

Any person who qualifies as an objector under section 16 of the *Pollution Control Act* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or where service is required, within 30 days of serving a copy of the application, file with the Director at the above address an objection in writing to the granting of an amendment, stating the manner in which he is affected.

Preamble—The purpose of this application is to amend existing permit to include additional discharge of effluent from newly constructed skating rink ice plant.

The Corporation of the City of Vernon, 3400—30th Street, Vernon, B.C., hereby applies for amendments, as described below, to Pollution Control Permit PE-1974, granted on May 9, 1973, which authorized the discharge of effluent from curling and skating rink ice plant, located at Vernon Community Centre, B.C., to Swan Lake Creek.

Amendments Requested:

A new skating rink with ice plant has been constructed adjacent to the original curling rink. The effluent from new compressor cooling system is discharged into Swan Lake Creek in addition to that already discharged from the curling rink ice plant.

The existing Permit PE-1974 for the curling/outdoor rinks indicated an average effluent discharge of 6,500 imperial gallons a day, which is considered to be high. During a 10-day peak-load condition in October 1980 the metred water usage averaged 5,258 imperial gallons a day. Application of 8% evaporation factor through the evaporating condensers would result in a net average discharge of 4,838 imperial gallons a day when the plant is in operation.

The new skating rink plant will discharge an average of 2,902 imperial gallons a day when operating.

The total discharge for both plants will average 7,740 imperial gallons a day when operating.

This application, dated on December 14, 1980, was posted on the ground in accordance with the Pollution Control Regulations.
